1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lawrence Ashery on 1/31/2007.

The application has been amended as follows:

Claim 1: Between the limitations of comparing and wherein, add the limitation of "displaying the deterioration of the capacitor on a display based on the comparison,"

2. The following is an examiner's statement of reasons for allowance: Claims 1 and 6 are allowable over the art of record because the prior art does not teach or render obvious the entire combination including specifically a method of determining a deterioration of a capacitor wherein the measurement frequency is selected to be less than a frequency corresponding to an inflection point in the predetermined impedance characteristic.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
